## Empathy is up

Written by Bob Owen

Wednesday, 20 July 2011 21:56

The new Colborne Art Gallery signature sculpture has been erected in front of the gallery. A handful of members and friends gathered on July 20 and hoisted the piece titled Empathy onto the pad created by John Kernaghan Construction.

The gallery is having an open house and celebration get together at 5 p.m. on July 21 to mark the occasion.

When describing the work, Empathy's sculptor, Claus Heinecke, stated, "Two interlocking cylinders echoing each other in size and shape seems an apt metaphor for

the idea of empathy, a quality to be fostered by society for the sake of peace and harmony".
